Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 08 December 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-50 is/are pending in the application.
- 4a) Of the above claim(s) 44-50 is/are withdrawn from consideration.
- 5) ☒ Claim(s) 17-29 and 39-43 is/are allowed.
- 6) ☒ Claim(s) 1,2,30,32 and 33 is/are rejected.
- 7) ☒ Claim(s) 3-16,31 and 34-38 is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 26 January 2004 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

DETAILED ACTION

Election/Restriction

1. Per Applicants' response dated 12/08/06, a provisional election was made without traverse to prosecute Invention I of claims 1-43. Claims 44-50 are withdrawn from further consideration by the Examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 30, 32 and 33 are rejected under 35 U.S.C. 102(b) as being anticipated by Sider (U. S. Pat. No. 4031798).

Regarding claim 1, Sider discloses a method of manufacturing a soundboard for a stringed musical instrument (Abstract; Figs. 1-3), said method comprising the steps of: fashioning a soundboard from at least one piece of lumber (col. 3, lines 15-20, lines 34-36; col. 5, lines 40-45); and texturing at least one surface of the soundboard (col. 3, lines 15-20, lines 25-33; col. 5, lines 38-40).

Art Unit: 2837

Regarding claim 30, Sider discloses a method of treating a wooden soundboard of a stringed musical instrument to enhance its resonance, said method comprising the step of texturing at least one surface of the soundboard (Figs. 1-3; col. 3, lines 15-20, lines 25-33; col. 5, lines 38-40).

Regarding claims 32 and 33, Sider discloses: wherein said at least one surface is textured with a random pattern irrespective of the location of earlywood and latewood grains (Figs. 1-3; col. 3, lines 15-20, lines 25-33; col. 5, lines 38-40); wherein said at least one surface is textured with a repeating relief pattern (Figs. 1-3; col. 3, lines 15-20, lines 25-33; col. 5, lines 38-40).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Sider in view of Lucas (U. S. Pat. No. 6639135).

Sider discloses the subject matter discussed above. Sider further teaches: said lumber selected is soft woods such as spruce, pine ad cedar (col. 3, lines 34-36).

Sider does not mention explicitly: wherein the lumber selected is quarter sawn.

Art Unit: 2837

Lucas discloses a technique for making a soundboard of stringed instrument, wherein said soundboard is made from at least one piece of lumber, and said lumber selected is quarter sawn (col. 1, lines 40-44; col. 6, lines 8-11).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the invention of Sider by having quarter sawn as the selected lumber, as taught by Lucas, in order to provide a lumber to make the soundboard which satisfies tonal objectives and also possesses a combination of strength and hardness (Lucas, col. 1, lines 32-44).

Allowable Subject Matter

6. Claims 3-16, 31 and 34-38 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 17-29 and 39-43 are allowed.

Reasons for Allowance

8. The following is a statement of reasons for the indication of allowable subject matter:

The primary reason for the allowance of claims 3-16 is the inclusion of the limitation that said at least one piece of lumber has both earlywood and latewood grains, and said at least one surface is textured by forming a plurality of grooves in the earlywood growth portions thereof. It is this limitation found in each of the

Art Unit: 2837

claims, as it is claimed in the combination that has not been found, taught or suggested by the prior art of record, which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 17-29 is the inclusion of the claimed method step of: compacting the earlywood grain on at least one surface of the panel to create a series of generally parallel grooves in said at least one surface. It is this limitation found in each of the claims, as it is claimed in the combination that has not been found, taught or suggested by the prior art of record, which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 31 and 34-38 is the inclusion of the limitation that said at least one surface is textured by forming a plurality of grooves in the earlywood growth portions thereof. It is this limitation found in each of the claims, as it is claimed in the combination that has not been found, taught or suggested by the prior art of record, which makes these claims allowable over the prior art.

The primary reason for the allowance of claims 39-43 is the inclusion of the claimed method step of: texturing at least one major surface of the panel by forming a plurality of grooves in the earlywood growth portions thereof. It is this limitation found in each of the claims, as it is claimed in the combination that has not been found, taught or suggested by the prior art of record, which makes these claims allowable over the prior art.
